

Mahmoud Abdurrahman

Passionate Mobile App Developer

CONTACT ME

Who am I?

Hi, I'm Mahmoud Abdurrahman, I'm a passionate mobile developer, and a tech savvy. I'm glad that you currently stumbling through my resume, so let me introduce myself.

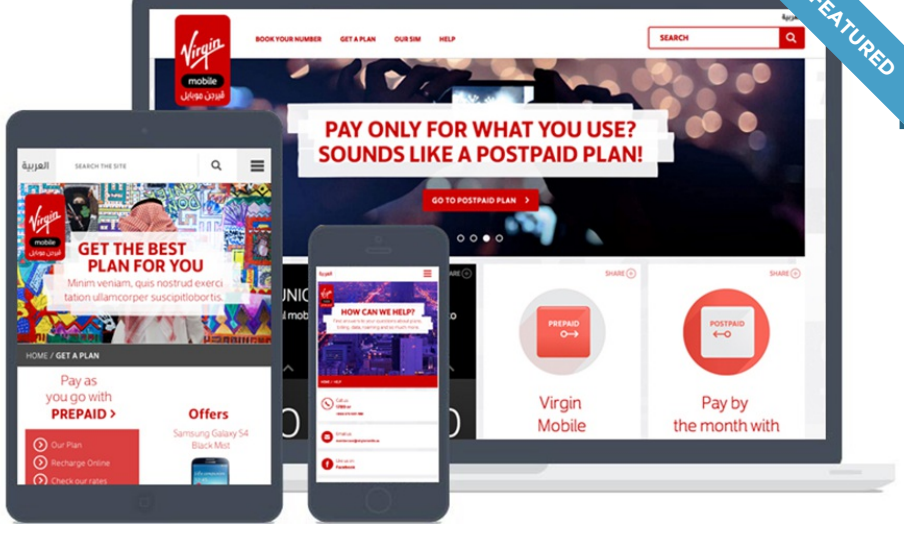

I'm a pragmatic crafter who believes in smart and focused development, building clients' products just as we do our own: investing heavily in design, iterating rapidly to validate and falsify ideas, and pursuing perfection in every interaction.

My love for computers came long time ago; Since I was 12 I started developing small apps with **MSX-BASIC** using **Sakhr AX170** and played games that boot from cassette tapes (i.e. **The Castle**) using **MSX Cassette Data Recorder**, all that helped me a lot getting introduced to computers in an early ege, when I started my high school, I focused more on programming, afterwards, although my major was in Geophysics but I was always passionate in computer programming.

Latest Projects

Virgin Self Care

Recommendations

"I've worked with Mahmoud in AlTazkia Group for about 5 years. He is talented, a great self learner, up-to-date with latest programming technologies, self motivated, ethical man. I recommend him for challenging software projects, independant to a specific programming language or technology.

Osama Sherif
Project Manager at Prax

"I have first worked with Mahmoud in 2010 on an "Admin GUI project" for Telecomax Egypt. The most notable thing to mention is his proficiency and experience in Java development. I recommend Mahmoud for those who seek highly professional results.

Shadi Atef
Managing & Art Director

"Mahmoud is a very organized and creative person and it's really nice to work with him. When he gets his arms around a problem, he worked tirelessly to resolve it. He also has a positive attitude, honest and straight forward.
